The Old Doctors

Draw blood, modern doctors cleanse it, but the old doctors used to bleed the patient. It is now well known that most diseases are due to the overabundance of blood in the system, and that the only way to cure them is to draw off the surplus. Ayer's Sarsaparilla is the best medicine for this purpose. It is a blood purifier and a general tonic. It is sold in bottles of 25 cents and 50 cents. It is made in Lowell, Mass.

KRAKATOA'S ERUPTION.

SCIENTIFIC INVESTIGATION OF THE NOTED VOLCANIC EXPLOSION.

Preliminary Performances of the Volcano When the Crisis Came—Destruction of the Great Island—Effects of the Explosion—Optical Phenomena.

In 1883 there were earthquakes along the shores of the Straits of Sunda, but Krakatoa gave no sign of reawakening until May 20 1883 when there was a sudden and violent eruption by which a column of dust and steam was thrown to a height of several miles and some of the matter ejected was carried as far as 800 miles before it descended to the earth. This eruption was accompanied by noises which in the morning of Krakatoa, while doors and windows were shaken. The force of this outburst was so common in that part of the world that little attention was paid to it. On May 26 an excursion party from Batavia visited the neighborhood and obtained a photograph of the mountain as it then appeared. In the middle of June another eruption opened and the dense pall of vapor that had been hanging over the region was perceptibly increased. After that the island became every day the scene of greater activity. On Aug 11 there were three principal and eleven smaller volcanic fires visible upon it.

When the crisis came the eruption came on the 27th of August. The afternoon before it could be seen that a crisis was approaching. The story is told from the logs of various ships that were in the neighborhood. Shows that frequent explosions then occurred and that the air was filled with vapor, pumice and dust. The sound of the explosions was heard at great distances and waves were started that were felt hundreds of miles away.

The investigations of the committee have proved conclusively that these eruptions of the afternoon of Aug 26 by which the island was torn to pieces by great fragments from it down to below the level of the sea were the direct cause of the crisis. The sound of the explosions was heard at great distances and waves were started that were felt hundreds of miles away.

TUESDAY EVE., NOV. 6, 1888.

Will just a few hours longer

We confidently expect an avalanche of
good news to-night.

Come to the court house to-night
hear the election returns.

After the next few days the every-
day affairs of life will be taken up, and
the humdrum sort of existence common
to humanity be again resumed. These
exciting election campaigns are wonder-
fully demoralizing to business, but they
are great educators. More people under-
stand the tariff question for instance—
than they do at least, than ever before,
and there never were so many people as
before who appreciated the value of a
government run in the interest of the
American people.

The inventive genius of the parties
has discovered that the pine
needle found underneath the turpentine
trees of the south makes an excellent
substitute for put in the manufacture of
baggings. The south sends out annually
five millions of dollars to purchase pine
needles. The new discovery will enable
us to keep this money at home. It also
puts a question on the pine tree, and
converts what has hitherto been useless
brush into a valuable article of domestic
industry. It is another illustration of
the fact that everything has its use, and
that there are no bounds to the inventive
genius of man.

Minister West has always been known
in Washington City as "Old Silence".
At all the receptions and parties
the dinners and other festivities he is always
maintained a grave and in perpetual
demeanor. It is a little singular, there-
fore, that when he opened his mouth to
write a letter he should, to use an old
Hibernian, have put his foot in it. He
is now in Coventry to speak but as he
has been hitherto so reticent, it is said
that he will not speak at all. The
government is to send him to Russia.
He cannot make a mistake of this sort
there for people don't vote in Russia.

How Cook County Voted Four
Years Ago.

Blaine ran ahead of his ticket and
Cleveland behind his in Chicago and
Cook county four years ago.

Carter Harrison ran ahead of his ticket
and Oglesby behind his at that election.

This was caused by the efforts of the
city saloons and the city police and other
office-holders for Carter who used all his
majority power to promote his chances
for the governorship.

But for lieutenant governor and for
auditor of state there were practically
no scratched tickets. Every Republican
and every Democrat voted for the non-
res.

WAITING FOR THE VERDICT.

A Chilly Election Day with Glimmers of Sunshine—The Vote.

If there is anyone in Decatur who thinks there is no interest taken in the national, state and county election, in progress to-day, he should visit the polls in Decatur township. A crowd has been about each voting place since the opening of the polls at 8 o'clock, and the old and young of all political faiths have been casting their ballots with unusual regularity. During the forenoon the atmosphere was quite raw and overcast were worn by those who had them. Those who did not hang about the polls in a shivering state. This afternoon the sun came out and made outdoor life more comfortable. The sunshine means victory for the Republicans and a heavy vote, not only in the city but throughout the country.

The verdict will be received by the Republicans at the court house to-night. Perfect arrangements have been made to receive the bulletins promptly from all parts of the country.

"Olivette" To-Night.

A splendid audience in size and enthusiasm was at the opera house last night to greet the Deshon company on its first appearance. "Erminie," or "Robert Macaire" was the opera presented. All were captivated by the production, the company, the pretty costumes and the accompaniment of the special orchestra. Frank Deshon and Tom Rickolls as the comedians made a very favorable impression and in their duets won repeated encores. Deshon is a whole team in his line of business. Musically the company is one of special merit, both as to solos and choruses. Miss Kittie Marcellus sang the tuneful air of the opera in the "Mother Song" in a most charming manner, her finely cultivated voice showing a wide range. She earned an encore. Miss Duray was also pleasing as the pert Marie.

To-night the entire company will appear in "Olivette." Prices 15, 25 and 35 cents.

How Mr. Fifer Spent the Day.

Mr. Fifer spent the greater part of Monday at his law office in Bloomington receiving calls from old friends of both parties. A telegram states that he looks as fresh and bright as the day the caucus commenced, and his evident good health was the subject of remark by every one. The outdoor exercise seemed to counteract the great mental exertion of his campaign and to have left him in as good health, notwithstanding his painful gunshot wound through the lung, as he has enjoyed since the war. Mr. Fifer's spirits were high. He assured all his friends that he would carry the State over Palmer by 30,000 plurality.
